PORTLAND, July 28.—There can be no question of the growing importance of Portland as a distributing point for California fruits. For instance, R. F. Hosking, agent or Southern California fruit associations, said this morning that the amount of fruit handled this year so far is more than double that of the corresponding period last year. In car lots, one broker handled this week eight cars of cantaloupes, 12 cars of lemons and oranges, 4 cars of deciduous fruits and 12 cars of watermelons. The average number of seven cars of bananas were distributed, two cars being unloaded this morning, the fruit being in fine shape.

Hawaiian pineapples were in active demand this morning, and were moving rapidly at prevailing quotations, from, say, \$3 to \$5 a dozen, few, however, selling at the lower figure.

Eggs and Butter.

There continues to be a very good market for all concerned in the egg market, prices being firm at 22c, which is considered reasonable to buyer and satisfactory to seller. In some quarters a half cent is named on top of the generally accepted figure. Ranch eggs are not coming in sufficiently to meet requirements, but the light receipts are being augmented by the Eastern goods, that sell side by side with the local eggs. No Portland storage eggs are being withdrawn, as far as could be learned.

Butter is firmer, though there are still very heavy receipts from usual sources of supply, and some from quarters new to this trade previous to this year.
